Thank you

DEAR FRIENDS,

While the global pandemic kept us from hosting our Great Chefs Tasting Party and Chip In Fore Hope Golf Classic this past fiscal year, you kept on supporting our work with generosity and compassion.

BECAUSE OF YOUR SUPPORT, INFINITEC

- was able to provide training and resources to 1070 school districts and 47 social service agencies throughout Illinois, Kansas and Minnesota
- offered 572 unique webinars and training modules to 14,794 paraprofessionals, with an impact on more than 75,000 students
- attracted 215,124 unique users to the newly redeveloped website

Because of your support, Infinitec transformed technological devices into life-saving, game-changing, goal-achieving opportunities so children and adults with disabilities can reach their fullest potential.

Our heartfelt gratitude for committing to our mission and the people we serve.

REGARDS,

Jim Garvey
Chairman

Susan O'Donovan
President and CEO

Infinitec

Although a global pandemic shut down two of our annual events, we adapted and used technology accessible to all of us (Zoom!) to recognize the amazing accomplishments of students in our Infinitec program. Award recipients were nominated by teachers and paraprofessionals and were selected by a panel of assistive technology experts based on their outstanding school and community accomplishments resulting from their mastery of assistive technology.

Evi is a middle schooler with a contagious positive attitude.

A user of a myriad of educational technology since 2014, 11-year old Evi currently uses a Surface Pro for in-class activities with the Tobii Dynavox PCEye 5 Tracker, and Computer Control Software. Evi's contagious positive attitude and her skills at using six assistive tech tools to demonstrate her brilliance earned her an Infinitec Student Technology Award.

Jack is a 15-year-old, fun-loving teenage boy with a good heart.

Jack's use of Google tools, his iPad with Lamp Words for Life vocabulary, and co-writer helped him secure an Infinitec Student Technology Award. The 15-year old's good heart, killer dance moves, and a great sense of humor didn't count against him, either!

Samantha is a fantastic 13-year old tech user who loves to talk.

13-year old Samantha is very social and very talkative! Supported by an augmentative and alternative communication (AAC) device since 2013, Sammy earned an Infinitec Student Technology Award for her skills using the iPad Mini with TouchChat WordPower 42 Basic, allowing her to expand her conversations and amaze her friends, family and teachers.

Donors

Reocognizing donors who gave between July 1, 2020 and June 30, 2021:

\$25,000 AND OVER

Mr. and Mrs. Patrick G. Ryan
